

*Easy to install and configure,
DataCollection increases accuracy and
efficiency in your receiving and fulfillment
operations.*

SalesPad™ DataCollection is a Windows Mobile® barcode data collection application that integrates fully with the SalesPad platform and Microsoft Dynamics™ GP. With DataCollection operating on a Windows Mobile® device equipped with a scanner, users can scan receipts of a product, locate inventory, and scan products for bin transfers, or as they are fulfilled to orders.

Combined with the functionality of SalesPad and Microsoft Dynamics™ GP, DataCollection users can enter purchase receipts and print bar-coded receiving or fulfillment paperwork and item barcode labels in one application.
