

## F.A.S.T. Network

Let CIS focus on  
the Network;  
You focus on  
Running Your  
Business

Our focus is to  
provide you with  
secure, high  
performance IT  
systems that are  
always available to  
keep pace so that  
you can focus  
managing costs and  
increasing revenues.

“IT is very  
important to our  
company and  
growth. We were  
not willing to  
gamble our  
business on our  
own ability to  
manage a  
network. CIS  
setup new  
servers, firewall,  
everything we  
needed. Now we  
don't worry  
about equipment  
failure, backups  
or data loss.”  
Dave Riddle,  
President of  
Shoes on a Shoe  
String

### What is a F.A.S.T Network?

Flexible Access Simplified Technology is a F.A.S.T Network. Can you imagine a computing environment that's so flawless and responds so quickly that your employees actually like working on their computer? Well that's a F.A.S.T. Network! It's redesigned from the ground up using advanced imaging and virtualization technology to minimize or eliminate downtime and data loss. Using the state of the art equipment and software, CIS has removed the complexity from the network so the end user can focus on using their computer for their job not on reengineering. No more excuses for a non-working computer.

### What Are Your Business Benefits with a F.A.S.T Network?

- Improved Productivity
- Full Protection and Control Through Layered Security
- No Down Time Guarantee
- Solid Budget with Fixed Costs
- Regular Technology Refresh Cycle
- No Hardware to Purchase or Maintain
- No More Software Licensing Headache
- Flawless System Integration
- Complete Hardware Support
- No IT Staff to Hire or Manage
- No Vendor Management Required
- Monthly Fee for Easy Budgeting

**ONE LOW MONTHLY PRICE FOR YOUR ENTIRE IT COSTS.  
NO HIDDEN FEES OR SURPRISES.**

### Service Guarantee

CIS believes a computer should be as simple and reliable to an end user as a calculator. **Turn it on, and it works!**

In the unlikely event your network goes down, CIS will have a recovery solution in place within one hour or we pay you \$100 for every hour that you are down.

To further improve productivity, CIS maintains a full compliment of spare parts inventory to ensure rapid replacement and reduced downtime.

### Simple Next Steps

- Quick count of your current network equipment
- CIS provides a quote and ROI document
- Contract review
- CIS Project Manager designs a transition to the new equipment and services utilizing our proven best practices
- Transition is completed to work with your schedule and keep business interruption to a minimum
- You benefit from the reliable and expertly maintained network!
